

# CPS-20, CO<sub>2</sub> Shaker

## DESCRIPTION

CO<sub>2</sub> Shaker CPS-20 provides regulated orbital motion of the platform and is designed for use in Biosan's S-Bt CO<sub>2</sub> Incubator. CPS-20 is specifically designed for use in harsh environments such as CO<sub>2</sub> and humidity and provides reproducible results for cell culture growth. A choice of 5 interchangeable platforms provide the possibility of performing various procedures and techniques in various cultivation vessels.

CPS-20 incorporates a brushless motor with a guaranteed service life up to 35,000 hours. The unit is equipped with a triple eccentric mechanism for platform motion that provides supreme balancing characteristics, superior reliability and quiet operation. The specially designed remote controller protect the electronics from a CO<sub>2</sub> incubator environment, as well as, the remote control minimizes interference with the incubator environment and the ongoing experiment.
